

## SUREPORT DATA SHEET

# Foundry-Brocade-Compatible Active Optical Cables

Champion ONE's active optical cables (AOCs) offer compatibility with OEM platforms and cables, and provide an affordable low-power alternative to optical transceivers. These cables are a perfect fit for simplified intra rack and inter rack configurations in a data center environment, and are available in data rates from 10G to 100G, and in one-to-one and breakout configurations.

*Champion ONE Sureport transceivers are programmed for one-to-one compatibility with your existing OEM platforms.*
