

SUREPORT DATA SHEET

HP-Compatible Direct Attach Cables

Champion ONE's direct-attach cables (DACs) offer compatibility with OEM platforms and cables, and provide an affordable low-power alternative to optical transceivers. These cables are a perfect fit for simplified intra rack and inter rack configurations in a data center environment, and are available in data rates from 10G to 40G, and in one-to-one and breakout configurations.

Champion ONE Sureport transceivers are programmed for one-to-one compatibility with your existing OEM platforms.
